Comments: (If possible, please reference section and/or page number in document if applicable.)

Nevada has paid it "nuclear" dues in the 40's and 50's, with the government assuring us
it was safe.

Dumping all the nuclear waste in one bucket is clearly a very DUMB plan, unless it is also
planned to consolidate all of the military bases in one place and then install the "dump"
in the middle of the base, thereby having adequate protection. Of course enlistment into
the armed servcies would probably decline.

Let Whoever uses and profits from Nuclear products keep the by-products.

Nevada does not exist to be the "kitty litter" of the nation.

I am very much against the utilization of Yucca Mountain for nuclear or any hazardous
waste dumping.

Sharon Maloney
